**2.3 Why is this work needed? (background, motivations, aims, etc.)**

The projects and activities of the TFS cluster are based on the European Waste Shipment Regulation (EC) N° 1013/2006 (WSR). Being a Regulation and including a cross-border aspect, it is of high importance to have an active and practical European network of inspectors and regulators that meet on a regular basis to exchange practical experiences. Not only environmental inspectors, but also Customs and Police officers and the Judiciary. Ongoing IMPEL-TFS projects continue to show the need for establishing and above all maintaining good and practical collaboration between Member States, third countries and relevant international organisations.

In June 2014 a number of amendments to the WSR were adopted, aiming at a better and more equal inspection regime of the WSR throughout the EU; for example by the establishment of inspection plans. The amendments also enhance the competences of the enforcement agencies and improved sharing of information.

On another note, the matter of E-waste has always been a priority for the TFS cluster. This topic has also been picked up by other international organisations and Industry, as shown by the Countering WEEE Illegal Trade project (CWIT). This project, which is coordinated by INTEPROL, aims to provide a set of recommendations to support the European Commission, law enforcement authorities, and customs organisations, in countering the illegal trade of eWaste in and from Europe. In June 2015 the CWIT project will have its final conference and INTERPOL had suggested to have their and the TFS conference back-to-back.

Lastly building and strengthening the link between the EU and key third countries is also required in order to verify the environmentally sound treatment of waste outside the EU. Part of the activities will therefore also include attending the annual meetings from two Asian networks; namely the Asian Network and the REN network.

**2.4 Desired outcome of the work (what do you want to achieve? What will be better / done differently as a result of this project?)**

- Exchanges of best practices and experiences
- Promotion of IMPEL work to a broader audience
- More uniform approach and interpretation of the WSR
- Improved collaboration between the involved law enforcement agencies
- Presenting the outcomes of the CWIT project to their most important target group
- Collect ideas for future work of the TFS cluster
- Improved links and joint actions with Asian countries

**2.5 Does this project link to any previous or current IMPEL projects? (state which projects and how they are related)**

Previous IMPEL TFS Conferences and third party collaboration.

**3. Structure of the proposed activity**

### 3.1 Describe the activities of the proposal (what are you going to do and how?)

### 3.2 Describe the products of the proposal (what are you going to produce in terms of output / outcome?)

- Conference report
- List of topics for possible future work for the cluster
- Press-release

Having the conference together with INTERPOL, will also generate publicity for IMPEL.
