and Enforcement of Environmental Law

INVITATION & AGENDA

IMPEL CAED - SECOND TRAINING SESSION (last training of 2022)

February 9th, 2022, 9:30h-13:30h CET

Dear Colleagues,

I am pleased to invite you to attend the IMPEL CAED Project – **SECOND Training Session** on the use of the Practical Guide and tables for the determination of the environmental damage. **Note that this will be the last training session of IMPEL CAED project 2021-2022.**

The IMPEL CAED is a project on the **criteria for the assessment of the environmental damage**.

*In 2020-2021 the IMPEL CAED project produced a **Practical Guide, Practical Tables** and **Examples of using Practical Tables** for the screening and the determination of the clues of the environmental damage, namely for the identification of the potential cases of environmental damage under ELD.*

All the above-mentioned products are available at: https://www.impel.eu/projects/criteria-for-the-assessment-of-the-environmental-damage-caed/ **by clicking on** IMPEL CAED Practical Guide (2020/24)**,** IMPEL CAED Practical Tables (2020/24)**.**

On the abovementioned products, IMPEL CAED will conduct this SECOND training session addressed to every interested person belonging to public bodies.

Target group for the training sessions might be competent authorities for environmental damage assessment and enforcement, environmental protection agencies, nature protection bodies, environmental inspectorates, environmental guard departments, environmental monitoring and research institutions, technical universities, environmental associations, NGOs. Also IMPEL, ENPE, EUFJE Network members are invited to attend.

The objectives of the training sessions will be to deliver and discuss a new methodology and practical tool for the screening and the identification of the potential cases of environmental damage under ELD; this approach can save effort, time and money (because the collection of sound evidence can be an expensive and time-consuming process) on unsuccessful assessments.

Finally, the IMPEL CAED project will organise a Webinar **in April 2022** with broader scope, including various topics related to ELD implementation and enforcement. A specific Invitation&Agenda will be sent in due time.

At this regard, we would like you to contribute to the program of this **Webinar**. You can do this by responding to this ONLINE QUESTIONNAIRE (time estimation for completing the questionnaire, 5 minutes), thank you!

Registration & Training Link

To register for the SECOND training session, please do this online via this registration form. The registration is mandatory, so you are kindly requested to complete the online registration to let us organise the training and receive in a quick way any useful training material and follow up.

This is the **link to join the Second Training Session** in Microsoft TEAMS. Please notice that you don't need to have any license or account to use this link. Please take care to be already connected on 9 February 2022 at 9:30h CET. Please use as connection time 9:15h-9:30h CET.

Agenda & Documentation

Please find the Agenda in the following pages. This is the **training material** to be downloaded.

Requests for additional information

If you have any request about the Agenda or additional information, please send me an email at francesco.andreotti@isprambiente.it

Thank you very much, I am looking forward to meeting you at the training.

Best regards,

Francesco Andreotti (IMPEL CAED Project Manager) **and the CAED Project Team**

AGENDA of the SECOND Training Session on the use of the Practical Guide and tables for the determination of the environmental damage

*IMPEL CAED project online SECOND Training Session, **9 February 2022, 9.30h -13:30h CET***

Agenda	
Title	*SECOND Training Session on the use of the Practical Guide and tables for the determination of the environmental damage*
Objective	- *Deliver and discuss a new methodology and practical tool for the screening and the identification of the potential cases of environmental damage under ELD* - *Learn how to use the methodology and practical tools in actual cases* - *Learn how to screen cases and determine clues of environmental damage under ELD*
Location	*On-line event*
Date	*9 February 2022*
Duration	*half-a-day*
Participants	*Target groups (see invitation above)*

Time	Item	Speaker	Description
INTRODUCTION			
9.30 – 9.45	*Introduction, Agenda and training material*	*Francesco Andreotti (Project Manager and moderator)*	- *Welcome message* - *Introduction to the training session and announcement about the webinar* - *Presentation of Agenda, purpose of the training and training material*
9.45 – 9.50	*Introduction to ELD*	*Francesco Andreotti*	*Brief introduction to Environmental Liability Directive (ELD)*
9.50 – 10.05	*New methodology*	*Daniele Montanaro*	*Description of the new methodology (three steps of screening, clues, evidence and DPSIR model adapted)*
10.05 - 10.20	*Decision-making flowcharts and practical tables*	*Francesco Andreotti*	*Description of the use of decision-making flowcharts and practical tables (precondition to use them, outputs and conclusions, etc.) for the identification of clues of environmental damage*
10.20 – 10.30	*BREAK (10 minutes)*		
CASE STUDIES			

Agenda			
10.30 – 10.55	*First case study illustration*	*Francesco Andreotti*	*Illustration of the use of the decision-making flowcharts and practical tables to a case study on biodiversity damage*
10:55 - 11:20	*Second case study illustration*	*Daniele Montanaro*	*Illustration of the use of the decision-making flowcharts and practical tables to a case study on water damage*
11:20 - 11:45	*Third case study illustration*	*Kim Bradley*	*Illustration of the use of the decision-making flowcharts and practical tables to a case study on land damage*
11.45 – 12.00	*BREAK (15 minutes)*		
WORLD CAFÉ SESSION			
12.00 – 12.10	*Presentation of a new case study*	*Francesco Andreotti*	*Presentation of a new case study to apply the tables*
12.10 – 13.00	*Exercise on the new case study (50 minutes)*	*Group of participants in 3 virtual rooms*	*Exercise – Use of the practical tables to the new case study*
13.00 – 13.25	*Discussion on the exercise*	*Francesco Andreotti and 3 voluntary rapporteurs*	*Discussion about the outputs of the exercise*
CONCLUSIONS			
13:25 - 13:30	*Conclusions and feedback*	*All participants*	*Conclusions and feedback (Mentimeter questions): 1) What was good, 2) What should be improved, 3) Other suggestions, 4) What topic has your major interest for the webinar? 5) On what would you like to be trained in the next project year?"* **NOTE:** you will be asked to connect to MENTIMETER.com with you mobile phone https://www.mentimeter.com to participate in a survey and send your feedback.
